RAC Stations 3

Although overall participation was down from 2002, the RAC Canada Day Contest continues to attract enthusiastic participation. With revision in the number of categories to a total of seven and modification of the rules, it is hoped that some of the difficulties in scoring have been overcome.

We still have a problem with missing summary sheets. Unfortunately, this delays compilation and announcement of the results and introduces extra work for the volunteers. Even on second and third requests, participants did not respond to calls for missing summary sheets.

Again, we wish to acknowledge and thank all who participated and submitted entries. The lack of volunteers to operate all of the available RAC callsigns was disappointing as was the lack of participation in Multi-Operator Single Transmitter Category. It is hoped that next year's contest will include on-air operation of all RAC callsigns and participation in all categories. Your comments and suggestions on both concerns will be welcomed.

Congratulations to the winners in each category and thanks to Radio Amateurs outside of Canada for your enthusiastic on-air participation in Canada's annual birthday celebration.
